Program Name: Male Community Reentry Program (MCRP)

Description: The Male Community Reentry Program (MCRP) is designed to provide or arrange linkage to a range of community-based, rehabilitative services that assist with substance use disorders, mental health care, medical care, employment, education, housing, family reunification, and social support. The MCRP is designed to help participants successfully reenter the community from prison and reduce recidivism.

The MCRP is a voluntary program for Male inmates who have approximately 120 days left to serve. The MCRP allow eligible inmates committed to state prison to serve the end of their sentences in the community in lieu of confinement in state prison.

The MCRP is a Department of Health Care Services licensed Alcohol or Other Drug treatment facility with on-site 24-hour supervision. Participants are supervised by on-site correctional staff in combination with facility contracted staff.

Location(s): Kern County
Los Angeles County

Length of Program: 120 days to 30 days prior to the Earliest Possible Release Date (EPRD)

Enrollment: Inmates determined eligible for placement will be reviewed by the Institutional Classification Committee and if approved for placement, referred to the Classification Staff Representative for endorsement. All participants are subjected to mandatory electronic monitoring and must agree to the monitoring as a condition of placement.
